

June 15, 1971

Resumé;

On June 15, 1971 Don Betz requested this party to locate and mark the corners of the North 100 feet of Lots 3 & 4, Block 6 of the Winans Addition to the City of Hood River, situated in the NE 1/4 of Section 36 T 3 N, R 10 E W.M.

A map of the re-survey of Winans Addition by Tenneson Engineering Corporation in 1967 was aquired from the office of the County Surveyor showing all block corners with grid coordinates and street centerline bearings.

The NE corner of Block 6, the NW corner of Block 5, and the NW corner of Lot 3 in Block 6 were all found and confirmed by traverse. Based on these found points and using the coordinates from the Tenneson map, the South line of the aforementioned tract (the North 100 feet of Lots 3 & 4, Block 6) was established and the corners set. The corners of the proposed structure were also located and mapped.

All measurements were made and checked against the existing to .05 of a foot. A map of this work is on file in the Hood River County Surveyor's Office.
