

NEWTON SURVEYING CO.
HOOD RIVER, OREGON

FIELD NOTES

FOR: W. O. 1060-H-72 - Max Ladiges - Survey of a descriptive parcel of land in the S1/3 S½ NE¼ NE¼ of Section 10, T. 2 N., R. 10 E., W.M., Hood River County, Ore.

CREW: Wilson Sims, Instrumentman
Roger Knippel, Chainman

DATE COMPLETED: June 29, 1972

On June 27, 1972, I was requested by Mr. Max Ladiges, White Salmon, Washington, to survey a parcel of land lying along the West side of Tucker Road between Barrett Road and Hays Road. Mr. Ladiges met with us at the property to instruct us as to the size and shape of the intended parcel being surveyed.

A search of the County Surveyor's records provided us with a recently obtained bearing and distance along the section line between Sections 10 and 11 which was pertinent to this survey. It was noted that the acquired information differed slightly from that as recorded by T.E.C. on survey dated 10-18-65 (W.O. 3531-Scoville) The T.E.C. map indicated North 01° 05' E. 2648.2 feet along the North half mile between Sections 10 and 11. For purposes of this survey the County data of North 01° 17' 02" East 2648.51 feet was used to compute the location of the East boundary of the S1/3 S½ NE¼ NE¼ of Section 10.

Because of the lack of surveys in the area by which to determine the direction of the North and South property lines, for purposes of this survey they were established perpendicular to the section line and will be subject to change at such a time when the NE¼ of Section 10 is properly subdivided.

All corners established during this survey were monumented with 5/8" iron rods fitted with aluminum caps. All angles were measured with a Wild T-16 theodolite and distances were measured with a 300 foot wire chain equipped with a tension handle and corrections were applied for temperature variations.

All corners found and established in the course of this survey, together with measured distances and angles are shown on the attached map, which by reference is made a part hereof.

I certify that this work was done under my direct supervision.
