FIELD NOTES

FOR: Mr. Harold Hoover - Project No. 71224 - Survey of Lot 14, Town of Belmont, in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 34, Township 3 North, Range 10 East, Willamette Meridian, Hood River County, Oregon.

CREW: Anthony C. Klein, Instrumentman
Jim Robinson, Chainman

DATE COMPLETED: May 13, 1971

On May 3, 1971 our firm was requested by Mr. Harold Hoover, Hood River, Oregon, to survey and set the four exterior corners of his property at the Northeast corner of the intersection of Belmont Road and Forden Lane. A copy of a Tenneson Engineering Corporation Survey (refer to Work Order #4175 - 10/23/70) was obtained from the County Surveyors Office and was used as a basis for control in the subdivision of the SW $\frac{1}{4}$ of Section 34. The distances shown on the survey map were used to establish the location of the property proportionate to that of record.

Bearing control was based on that as shown on the Tenneson Engineering Corporation map along boundary between Sections 4 and 33 (Township 2 and 3 North, Range 10 East). The boundary between Sections 33 and 34 was established by laying out the angle as indicated on the map and projecting the line Northerly along the centerline of Forden Lane.

During the course of the survey a $\frac{1}{2}$ " iron pipe was found on the South Boundary of the property surveyed and 30.00 feet West of the re-established Southeast property corner. No records were available as to its origin.
