DATE COMPLETED: November 13, 1972

Mr. Nunamaker requested that a parcel of land, as described in a description furnished by him, be split by a line which is 7.5' west of an existing house.

Records were researched at the County Survey office and our files and all information obtained. The centerline of both Montello Street and 20th Street were established and the intersection determined. The parcel was then layed out using this information.

All corners found and established during the course of this survey, along with the measured distances and angles are shown on the attached map, which a part is made hereof.
