DATE COMPLETED: October 4, 1972

Mrs. Gorman requested that the corners of the property in the description she furnished ~~be~~ be located. This property is her place of residence.

A research of the records at the County Survey office was made and very little information was found. The city control stations as shown were found and used to locate the property corners. The NE corner of the property was in-accessible and offsets were put on line in both directions.

All corners found and established during the course of this survey, along with the measured angles and distances are shown on the attached map, in which a part is made hereof.
