## FIELD NOTES:

FOR: Donald Manley, in the SE  $\frac{1}{4}$ , Section 3, T2N, R10E, WM, Hood  
River County - Project #72256

CREW: A. Klein - Party Cheif  
J. Robinson - Instrument man  
D. Robinson - Chainman

DATE COMPLETED: September 29, 1972

Mr. Manley requested that we survey and set the corners of a portion of a parcel owned by him. Mr. Manley furnished to this office a copy of the plat of a survey done by George Frey in February of 1964.

Upon research at the county surveyors office, surveys of the new High School which adjoins Mr. Manley's property, by Tennison Engineering Corp. and the field notes of the Countys survey for the boundary of the section were obtained. With this information, the section was calculated and sub-divided into quarter-quarter sections and the distances and bearings established.

It was found that the survey made by George Frey was in error and that there was a gap between the parcel in the SW corner of the plat and Mr. Manley's property as shown.

All monument found and set along with the established bearings and distances are shown on the attached map which a part is made hereof.

Signed
