FIELD NOTES

A survey for Mrs. Elmo Rives of her property located in the S.E. $\frac{1}{4}$ of the S. E. $\frac{1}{4}$ of Section 32, Township 1 North, Range 10 East, W. M. Hood River County, Oregon

Crew: R. A. King, Registered Professional Land Surveyor
W. C. Brown, Party Chief
W. Utley, Chainman

In November 1972 Mrs. Rives requested a survey to locate the corners of her property.

The field work involved locating property corners in the vicinity. The S. W. corner of the property was found, this was also the N. W. corner of the adjacent property, the S. W. corner of this property was also found. These corners are both located on the east line of Fifth Street. One other corner was found on the south line of the adjacent property. These corners were used to determine the angle between Fifth Street and the property lines. The property corners were set by projecting the east line of Fifth northerly 100 feet as deeded. The corners on the east boundary were set by turning the predetermined angle and measuring the deeded distance.

Monuments set in the course of this survey, property corners as shown.

Monuments found and set are shown on the attached drawing, which by reference is made a part of this survey.
