

#7302

Resumé for Don Betz Survey

Located in the NE 1/4 of Section 35, T 3N., R 10E.W.M.

City of Hood River, Oregon

January 1, 1973

Party; Ed Graham and Richard King

Mr. Betz requested that two lots be staked, according to certain indicated dimensions, in the unplatted block between "B" and "C" Streets and 17th Street. Research in the office of the Hood River County Surveyor produced a plat of survey and description of a lot staked in the NE corner of this same block by Tenneson Engineering Company in 1967. Most control points found and set during this 1967 survey were located in the field and utilized in reconstructing the North and West limits of the block. The lot sizes were determined by the property owner. Distances and angles shown on the accompanying plat were taken from the Tenneson Survey Number 3681 and were checked in the field. All lot corners set on this survey are 1/2" by 24" Re-bar driven flush with the ground.

Ed Graham, Chief of Party
