Resumé of Survey

For: Alvin Lee

Located: SE 1/4 of Section 2 T2N R10EWM
Hood River County, Oregon

Date: March 5, 1973

Mr. Lee requested that the four lots and the North-South access road created by the Mart Perkins survey in 1958 be consolidated into two equal lots fronting on the existing roadway along the South property line and extending North the full length of the parcel.

All the monuments set by Perkins were found. The monuments on the North line and the South line were found to be in good alignment and distance as per the filed Perkins plat. Using the existing line and at midpoint between the extreme corners I set the new lot pipes on both the North and South property lines.
