T.E.C. work order #5163.

DATE COMPLETED: August 27, 1975

On August 18, 1975 our firm was retained by Mr. Cy Penn of Mercury Development Co., Portland, Oregon, to survey a tract of land in the S.W. 1/4 Section 36, T. 3 N., R. 10 E., W.M., and to tie all buildings and major physical improvements.

Before commencing the survey we researched the County Surveyor's records for surveys and section corner data on file. We obtained section corner reference material. From our records we found a copy of a survey for Mr. William Brenner, T.E.C. work order #4455, and a survey for Mountain View Manor, T.E.C. work order #5163.

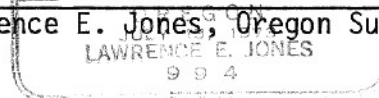

The survey was started at the S.W. corner of Section 36, which is monumented with a spike in the center of the intersection of 12th Street and Elliot Road. From this point a direct line was established and measured to the intersection of Pacific Avenue and the west line of Section 36. This point is monumented with a railroad spike. A point was established on the west line of section 36, 525.0 ft. north of the S.W. corner, a deed call distance, marking the southerly boundary of the tract being surveyed. We then ran easterly, parallel with the south line of Section 36 as established by prior survey, 545.0 ft. (a deed call distance) to the S.E. corner of the tract. The N.E. corner of the tract was found to be monumented with a 5/8" iron rod and its location was verified by field measurements.

This survey is based on established and recognized monuments. Corners found and established in the course of the above survey, together with measured bearings, distances and ties, are shown on the attached map, T.E.C. work order #5195, which by reference is made a part hereof.
