REFERENCES: Hood River County Surveyor's reference files.

DATE COMPLETED: November 12, 1975

In March, 1975, our Department was requested by the Hood River County Forestry Department to set property corners and line stakes as shown on the map accompanying this resume.

Prior to starting the project we researched our files for existing monumented corners. We found that said Section 19 had been surveyed by the County in July of 1971 for the Antione Timber Sale. Location of all section corners and quarter corners on our resurvey are the same as those used and described in the resume of that July 1971 survey. The reason for the resurvey was an error in bearings and distances of computed section line as shown on the recorded drawing of the July, 1971 survey. Using part of a traverse Aerial Mapping Company did of Section 20, Township 1 South, Range 10 East WM. for Drake Development Company, we traversed around Section 19, closing one in 56,120. We then broke down said Section 19 and set the Hood River County Forest property corners, as shown on the drawing. This completed the requested survey.

David Downing
Party Chief
