In April, 1976, our Department was requested by the Hood River County Forestry Department to set the southwest corner of the northwest quarter of the northwest quarter of Said Section 21.

Starting the project, we searched and found the original G.L.O. bearing trees for the northwest and southwest section corners of said Section 21. We then traversed between said corners and being unable to find the quarter corner, set it by single proportioning method. We then set the said 1/16th corner to complete the project.
