

Sept. 1985

NARRATIVE

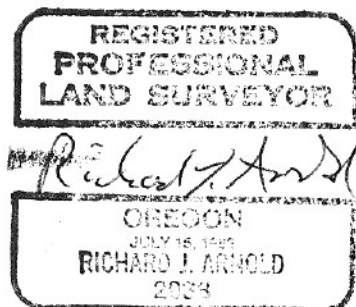

Survey in Section 15 T.1N R.10 E
C.S. #85057

The Hood River County Survey Dept. performed this survey at the request of the Hood River County Forestry Dept. in order to locate the boundaries of the County Forest Lands in the SW 1/4 of Section 15.

The North, South, and West 1/4 Corners and the SW, SE, and NE Section corners were found and accepted. The E 1/4 corner was set by single proportion, because the iron pipe found nearby was not of record, and no original evidence was found to support it. These corners were all tied by field traverse, and the Center Section, the Center South 1/16, and the South 1/16 between Sections 15 and 16 were all set. The north, south, and east lines of the County parcel were blazed.

An old fence along the East half of the South line was found to be 14' to 38' north of the 1/16 line. (See Plat C.S. #85057)
