NARRATIVE  
FOR  
HOOD RIVER COUNTY  
"POST CANYON" SURVEY  
SECTION 6, TOWNSHIP 2 NORTH, RANGE 10 EAST  
JULY 1990  
COUNTY SURVEY #90057

In June of 1990, we were asked to determine the property line between Wygant State Park and the South half of the Northeast Quarter by the Forestry Department.

Hood River County had tied the four Quarter Corners and the Southeast Section Corner of Section 6 to survey the South half of the Southeast Quarter for the Forestry Department as shown in County Survey #85058. By using that County Survey, and a D.L.C. Surveying, C.S. #84060 of the Southwest Quarter of Section 5, and a Bishop Surveying, C.S. #78035, which was the basis-of-bearing of all three surveys, the Northeast Corner of Section 6 could be calculated. At the North Quarter Corner, a 3/4" iron pipe and an original Bearing Tree were found as per Hood River County Corner Card #732. We replaced the pipe with a 2" x 30" iron pipe with brass cap, and set three new Bearing Trees. The Northeast Corner was found as per Corner Card #819. A traverse from the Northeast Corner to the North Quarter Corner closed to our calculated position within half of a foot. The sixteenth corners were calculated based on tied and calculated corners, and proportioned to the G.L.O. Plat. We then traversed the half mile to be posted. Acceptable closure was obtained, the one-sixteenth corners at each end were set, and the line blazed, and posted with Carsonite posts supplied by the State Parks Division.

Richard Arnold,

County Surveyor
