DATE COMPLETED: May 1971

On March 22, 1971 our firm was retained by American Pacific Corporation, Seattle, Washington, to survey and prepare a plat of that property purchased from David F. McKeown in the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$ Section 27, Township 2 North, Range 10 East, Willamette Meridian. The county records were researched and all available survey information was obtained.

The property was then laid out according to the legal description as purchased by American Pacific. The angle between the North line of Section 27 and the North-South center line of Section 27 was turned by setting on the North $\frac{1}{2}$ corner of Section 27 and sighting between the NW $\frac{1}{4}$ corner of Section 27 and a point on the North-South center line of Section 27.

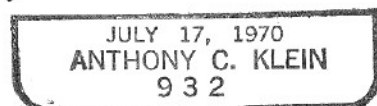

During the boundry survey of the property it was found that a barn and small shed encroached on the southerly boundry by about two(2) feet. An easement was granted by American Pacific to Mr. Donald Wood, executor of the adjoining property around the barn.

Bearing control is based on a solar observation taken by this office.

Property corners found and established in the course of this survey, together with measured distances and angles, are shown on on the attached plat which by reference is made a part hereof.
