

...at the corner of the section, I then placed
 11.6 feet for approximately 1st corner and set marker at
 an approximate corner. This is a stake in an 18" space
 street. We then started back through the center of the section
 completed it out 1.00 ch. and set a post for approximately 1/10
 all be the corner of Jaymar land. I started the south line of
 road crossing approximately 800 ft. west of this stake. This
 to be continued later date, but logging could be marked as done.

...at approximately 800 ft. west of this stake. This
 road crossing approximately 800 ft. west of this stake. This
 to be continued later date, but logging could be marked as done.
