Ed P. Stanley Survey JO. S-7017
Southwest $\frac{1}{4}$ Section 27, T 1 N, R 10 E, WM.

I established the West $\frac{1}{16}$ corner of the Southwest $\frac{1}{4}$ of Section 27 by dividing the total distance of the West line of the Southwest $\frac{1}{4}$ of Section 27, of which i found the West $\frac{1}{4}$ corner of said Section 27 and the Southwest corner of said Section, as shown on plat.

I established the East $\frac{1}{16}$ corner of said Southwest $\frac{1}{4}$ by the same method, as shown. I found the South $\frac{1}{4}$ corner of said Section 27 with witness stumps and trees in place as shown, I also used the Steet Plate on the fence post for the center of Section 27 as accepted by Hood River County. I found the North $\frac{1}{16}$ corner of said Southwest $\frac{1}{4}$ and the South $\frac{1}{16}$ corner as shown on my plat and which was shown on plats of record. Then proceeded as shown on plat.
