Sept. 24, 1970

W. J. Webb and Vernon Wister Survey JO. 6852

The deeds to these properties do not actually tie in the East  $\frac{1}{4}$  corner or the Section Corner but begins on the South line of the Northeast  $\frac{1}{4}$  of Section 22, 830 feet West of the Westerly boundary of Odell Highway. I found a iron pipe at said intersection of said South line with said Westerly boundary. I found irons in the center of a 60 foot road Easement at the Westerly boundary of Odell Highway and to the West of property of Vernon Wister. Then I measured 332 feet South from this point to establish the South line, then proceeded as shown on plat.
