FIELD NOTES

FOR: Harold Hoover - Project No. 71225 - Survey of the North boundary line of the SW $\frac{1}{4}$ NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 8, Township 2 North, Range 10 East, Willamette Meridian, Hood River County, Oregon

CREW: Anthony C. Klein - instrumentman
Jim Robinson - Chainman

DATE COMPLETED: May 11, 1971

On May 3, 1971 our firm was requested by Mr. Harold Hoover, Hood River, to survey the North boundary of his property along York Hill Road setting stakes along the line and permanent monuments at the corners.

Information obtained from the County Surveyors office indicated that both corners had at one time been set, but a field search recovered only the Northwest property corner. The Northeast corner, which fell very close to York Hill Road, was reestablished according to the data shown on the work sheets from the County Surveyors office, and a previous survey by our firm (refer to project No. 6945 July '69). From the reestablished Northeast property corner position the North property line was projected West to the found Northwest property corner. The line as established crossed through a Siphon box, the exact location is shown on the attached map. The line also passes approximately 35 feet North of an existing fenceline which apparently is used by the landowner adjacent to and North of Mr. Hoover's property. The fence does not continue for the full length of the line established.

Bearings used throughout this survey were extended from that established during prior surveys by our firm.

Property corners found and established in the course of this survey, together with measured distances and angles, are shown on the attached map which by reference is made a part hereof.
