

NARRATIVE: The Purpose of this survey was to locate platted Lot 33 as shown. Old survey records indicate that there were numerous survey monuments in the area along 13th Street & Belmont Street and also in the E. 1/2 of Block 1 of Stranahans 1st Addition. It was concluded that street improvements along said streets had destroyed the said survey monuments. It was also concluded that building improvements had destroyed said monuments in the E. 1/2 of said Block 1. As a result of these improvements this survey had to go into the adjoining Stranahans 2nd Add. for control on the West. In addition this survey utilizes the unorthodox procedure of accepting existing building corners for main survey control; making the assumption that the buildings were built to the old surveys.
