NARRATIVE OF SURVEY

The purpose of the survey was to establish the boundaries of the properties herein. The records at the County Surveyors office were researched. A survey by Tenneson Eng in 1973, DLC Surveying in 1977, and Terra Surveying in 1986 were found and used to establish the boundaries of the property. All existing monuments found were held with minor adjustment and all distances were proportioned accordingly. All monuments found and established along with the measured distances and bearings are shown herein.
