- 2) G.J. Ford, PLS 2210, CS2000087 (2000)

Narrative:

The purpose of this survey was to recover, establish or reestablish the applicable PLSS corners and mark the south line of the Southwest Quarter of Section 2 and a portion of the south line of the Southeast Quarter of Section 3, all in Township 1 South, Range 9 East, W.M. in Hood River County, Oregon for timber harvest.

Control for the survey was established using conventional ground traverses and closed loop field traverses using a Topcon GTS-220 (00°00'05") total station. This survey recovered, confirmed to the applicable records and accepted each of the corners depicted as "found corner as noted".

The surveyed property lines were flagged, blazed, painted and posted with 1/2" x 72" fiberglass rods. The typical accessory bearing tree established by this survey has a scribed face, a 60d spike in center face and an aluminum tag at head height facing the corner.
